MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Federal Engineer of the Year Award Program

1. The U. S. Army Corps of Engineers, together with other Federal agencies, is again participating in the annual Federal Engineer of the Year Award (FEYA) Program sponsored by the National Society of Professional Engineers (NSPE). While recognizing the accomplishments of all engineers in the Federal Government, the award focuses on outstanding individual engineers. This is the twenty-first annual FEYA program.
2. For this competition, each participating agency is responsible for selecting one military officer and/or one civilian engineer who will be designated as that agency's nominees for the FEYA competition. A HQUSACE panel will select the two Corps nominees while an NSPE evaluation panel will select the "Federal Engineer of the Year."
3. Through this program you have the opportunity to formally acknowledge the contributions of an outstanding military and civilian engineer from your command. I urge you to take advantage of this opportunity. In the past, we have had an excellent response, producing exceptional candidates. Your review of applicants should include their involvement in activities both on and off the job.
4. Your nominees must be registered professional engineers (P.E. or E.I.T.). An original and seven copies of the NSPE nomination document (enclosed) must be submitted to HQUSACE (CEMP-ED) by 22 October 1999. All nomination information including the nomination form can be downloaded from the web site: <http://www.hq.usace.army.mil/comp/e/comp-e.htm>. Nominations must not be submitted directly to NSPE.
5. Individual agency award winners and the "Federal Engineer of the Year," will be honored at a ceremony to be held in conjunction with National Engineers Week. The awards will be presented on Thursday, 24 February 2000, in Arlington, Virginia.
6. The HQUSACE point of contact is Robert DiAngelo, CEMP-ED. His phone number is (202) 761-4803; FAX (202) 761-4139. Nomination submittals should be sent to him.
